Busy Being Brilliant!

Further home learning links

As the Covid-19 situation continues, more and more websites, companies and trusts around the world are making their resources available to support anyone that may have to self-isolate. This is another wonderful example of humanity working together and displaying our #BeKind and #BeOnTheTeam bee-haviours. At Laceyfields, we would like to thank all of these providers for their kindness, and would encourage you to take advantage of the wonderful materials they are offering!

Please find some more links and ideas below.

Corbett Maths is a wonderful site where there are explanatory videos and practise questions for you to have a go at. Please do bear in mind that the range of topics is listed alphabetically and includes some content from Primary and Secondary objectives.

<https://corbettmaths.com/contents/>

Maths Bot is another site which has content from all Key Stages, but has some great interactive resources for supporting understanding as well as practise games/questions...

<https://mathsbot.com/>

Author and illustrator Oliver Jeffers announced that he will be reading one of his books daily on Instagram, or you can find the recorded versions here...

<https://www.oliverjeffers.com/books#/abookaday/>

In a similar vein, Joe Wicks (The Body Coach) has announced he will be streaming live workouts every day from 9:00 on his you tube channel – link below...

The Khan Academy website has released a lot of resources free for parents and pupils. A few things to note...

- 1) You will need to sign up as a parent, and create an account for yourself and your child
- 2) This is an American website and the content is therefore based on the American Curriculum, although there is understandably much crossover
- 3) US Grade 1 is roughly equivalent to UK Year 2
- 4) The computing section looks really good!

The information about their resources and how to sign up can be found at...
